**Ingredients:**

- Pasteurized Skim Milk
- Strawberries
- Cane Sugar
- Fruit Pectin
- Live Active Cultures

**Live Active Cultures:**

- S. thermophilus
- L. delbrueckii subsp. bulgaricus
- B. lactis
- L. acidophilus
- L. delbrueckii subsp. lactis

**What’s Inside**

thoughtfully simple™

simple ingredients

siggi’s does not try to fake deliciousness. siggi’s strawberry skyr is made with pasteurized skim milk, strawberries, cane sugar, fruit pectin (from citrus fruits), and live active cultures - that’s it. siggi’s uses real food ingredients you can find in your kitchen.

protein

siggi’s flavored yogurt varieties have up to 15 grams of protein per serving - that’s more protein than sugar in each container.

no artificial ingredients

No artificial sweeteners
No artificial flavors
No preservatives
No thickeners
No artificial colors

**Not a Lot of Sugar**

Mainstream yogurts can have up to 22g of sugar per serving. Our flavored varieties have 9-11 grams which includes the naturally occuring sugars from the lactose of milk, fruit, and a touch of agave nectar or cane sugar.

**Skiyrs**

Like milk, regular yogurt is mostly water - but with skyr, that water is strained away, creating a thick and creamy consistency. While there are various styles of strained yogurt, skyr is particularly high in protein.

*On average, siggi’s® single serve flavored yogurts have 6 ingredients, 1.8g sugar per oz., and 2.8g protein per oz.; compared to an average of 12 ingredients, 3.2g sugar per oz., and 1.8g protein per oz. in leading single serve flavored yogurts made without low-calorie/no-calorie sweeteners.
